

Brush Dump Permit Required

In 2022 the Town of Germantown processed one million pounds of brush. Due to increased demand, expense for disposal, and misuse of the brush dump, a permit will be required to be purchased and displayed in the vehicle in the lower area of the windshield on the driver side when using the brush dump. The cost is \$25 for a Town of Germantown resident's permit and \$100 for a Town of Germantown commercial permit. Permits will be available at the Germantown Town Hall. The brush dump is for normal yard waste generated only in the Town of Germantown, such as leaves, grass clippings, yard waste, brush, and small branches up to 6" in diameter from yard maintenance, not lot clearing.

Not accepted and Not to be left in the dump area:

Full sized trees (even cut into segments), tree stumps, and building materials. It is Not for lot clearing. Metal or other debris as it would damage equipment that is used to mulch the piles and haul it away.

It is open during daytime hours, except in winter when the area is under snow.

We hope the dump will be used properly, but if the dump rules are not followed the security cameras will be used for enforcement.

2023 Brush Dump Permit Application

Name

**Street
Address**

Phone

Permit:

**Residential
\$25**

**Commercial
\$100**

To receive a permit, return this form, a check (no cash please) made payable to the Town of Germantown, and self-addressed stamped envelope to: Town of Germantown, N7560 17th Ave., New Lisbon, WI 53950
